OOP, Datastructures and algorithms, Relational and no-relational database, ORM, RestfullAPI, Graphql, CI/CD, Cloud Storage, Payment gateways

TOOLS

OBJECTIVE

I am a creative Web Developer who loves turning ideas into smooth, friendly web pages. My next goal is to grow into a Full-Stack Developer. Continuosly learn and explore new , modern knowledge so that i can apply my own experiences and skill proactively to bring value to the business.

EDUCATION

FPT UNIVERSITY   **2021** - **2025**

SOFTWARE ENGINEER

- Graduated in 2025

WORK EXPERTENCE

Full-Stack Developer   Dec 2023 - Apr 2025

NEXTSKY, Hanoi

- Built and deployed Shopify public app "NS – Discount in Cart" (Node.js, ReactJS, Polaris, REST/GraphQL APIs), adopted by 5,000+ merchants.
- Developed and released Shopify themes ("Agile", "Umino", "Glozin") with Liquid/HTML/CSS/JS, achieving 1,500+ sales and 4.9/5 rating.
- Extended internal system Ticksify (Laravel,Reactjs,React Query,MySQL,...) with payments, license renewals, and analytics; improved storefront accessibility (WCAG 2.1 AA), reducing support tickets by 30%.

PROJECTS

TICKSIFY – EXTENDED SUPPORT SYSTEM   **Jan, 2024** - **Aug, 2024**

NEXTSKY, HANOI

- Customized and extended the Ticksify platform to manage support tickets, internal tasks, and project finances.
- Integrated PayOS payment gateway for license renewals and direct service purchases.
- Built a purchase code tracking system with auto-renewal reminders and license status monitoring.
- Developed team task assignment features to allocate and monitor agent responsibilities in real time.
- Implemented dashboards to manage project expenses, time tracking per task/agent, and workload performance.
- Enhanced ticket analytics with breakdowns by status, response time, and support agent.
- Built landing page tracking to monitor click-throughs, conversion rates, and sales for multiple Shopify themes: Umino, Glozin, Rokan, Alukas.
- **Tech stack**: Laravel, Reactjs,Zustand, Tailwind CSS, MySQL,React Query + Axios.....
- Link website: https://support.nextsky.co/

NEXTSKY AFFILIATE PROGRAM   **Nov, 2024** - **Feb, 2025**

Affiliate & Partner Landing Page — 2025

- Built a marketing landing page to recruit affiliates — hero CTA, perks (15% commission, custom campaigns, transparent payouts), and step-by-step join

- guide.
- Developed affiliate registration form with live validation and API integration; users get instant submission status.
- Implemented FAQ accordion (payout schedule, tracking dashboard, policies) for better onboarding.
- Added partner/product showcase grids with animations and CTAs ("Learn More", "Join Us Now").
- Integrated newsletter signup and contact section to capture leads; tracked interactions via analytics hooks.
- Deployed responsive SPA, optimized for SEO and 90+ Lighthouse score.
- **Tech stack:** ReactJS, Vite, React Router, React Query + Axios, Zustand, Framer Motion.
- Link website: https://nextsky.co/

SCRAPEFLOW   Feb, 2025 - Apr,2025

Website workflow

- Users open any site, click an element, and add steps like EXTRACT_TEXT_TO_ELEMENT,CLICK_ELEMENT,WAIT_FOR_ELEMENT,.... to create their own scraping or testing flows.
- Integrated PayOS for buying credits; each flow run draws credits and updates the user's balance instantly.
- Show charts for runs, success vs. failure, and credits used per run so users can track results at a glance.
- Supported 12 task types in one flow, including LAUNCH_BROWSER, PAGE_TO_HTML, FILL_INPUT, SCROLL_TO_ELEMENT, DELIVER_VIA_WEBHOOK and JSON read/write steps.
- Stored flows and run logs with Prisma; used WebSockets to stream live logs to the front end while a flow is running.
- **Tech stack:** Next.js, TypeScript, React-Flow, Prisma, and React Query.

SHOPIFY THEME DEVELOPER   Dec, 2023 - Mar, 2025

NEXTSKY, HANOI

- Build fast, mobile-friendly Shopify themes with Liquid, HTML, CSS and JavaScript.
- Released the "Agile", "Umino" and "Glozin" themes—1,500+ sales and a 4.9 / 5 average rating.
- Collaborated with UX team to translate Figma designs into pixel-perfect, WCAG 2.1 AA-compliant storefronts.
- Architecture modular section & block system for Online Store 2.0; reduced theme-customization support tickets.
- Integrated key third-party services (PayOS, VNPay, Judge.me,.....) through REST / GraphQL APIs, adding automated email flows.
- **Tech stack**: HTML, Css, js, liquid,......

SHOPIFY APP DEVELOPER   Dec, 2024 - Mar, 2025

NEXTSKY, HANOI

- Create and maintain the public app "NS – Discount in Cart," used by 5 000+ Shopify stores.
- App lets merchants add, update, or delete themes with one click, then rolls changes to all live stores.
- Gives shoppers a discount box right inside the cart; price updates the moment a code is added.

- **Tech stack:** Node.js, React, Polaris UI, App Bridge, REST & GraphQL Admin APIs; stores data in MongoDB.Integrated an in-app analytics dashboard (Chart.js) so merchants can track redemptions, total saved, and order lift.
- Link App: https://apps.shopify.com/discount-master-pro
